The amendments to other paragraphs throughout the Specification correct obvious typographical errors and insert sequence identifiers.

This amendment is accompanied by a floppy disk containing the above named sequences, SEQ ID NOS:1-89, in computer readable form, and a paper copy of the sequence information which has been printed from the floppy disk.

The information contained in the computer readable disk was prepared through the use of the software program "PatentIn" and is identical to that of the paper copy. This amendment contains no new matter.
